WORK EXPERIENCE

Analyst
HCL Technologies

07/2021 - Present   *Noida, UP, India*

Achievements/Tasks

- Spearheaded the design and development of visually captivating and responsive user interfaces (UIs) that enhanced user experiences.
- Employed JavaScript, alongside essential frameworks, tools, and libraries, to introduce dynamic interactivity into user interfaces, resulting in enhanced user engagement.
- Successfully created and implemented more than 200 custom-designed interfaces for various web and mobile applications, meeting diverse client requirements.
- Skillfully utilized a combination of React JS, CSS, SASS, Tailwind CSS, Bootstrap, Git, and Framer Motion to produce aesthetically-pleasing user interfaces, effectively accommodating intricate navigation and interaction complexities.

Graduate Engineer Trainee
HCL Technologies

12/2019 - 06/2021   *Noida, UP, India*

Achievements/Tasks

- Demonstrating exceptional attention to detail by efficiently creating, documenting, and reviewing the required steps for CHANGE management, ensuring accuracy and adherence to established protocols.
- Proactively overseeing INCs & RITMs queue, skillfully assigning them to agents based on shift timing, thereby optimizing resource allocation and maximizing productivity.
- Consistently delivering optimal solutions within the defined SLA (Service Level Agreement), exhibiting a strong commitment to meeting and exceeding client expectations.

Bachelor of Technology
Dr A P J Abdul Kalam Technical University

07/2015 - 06/2019   *Lucknow, UP, India*

Courses

- Computer Science & Engineering

SKILLS

HTML | CSS | JavaScript | TypeScript | ReactJS
NextJS | Bootstrap | Tailwind CSS | SASS
MongoDB | NodeJS | ExpressJS | Redux
Firebase | Git | GitHub | Framer Motion
Adobe Photoshop | Microsoft 365 | WordPress

PERSONAL PROJECTS

Banaras Films (03/2023 - 04/2023)

- Banaras Films is a startup company. They provides services like Photograpy, Videography, Event Photography, Pre-Wedding shoots, Wedding Film shoots and album creations.
- Here, I have designed website for them using ReactJS & Tailwind CSS. I added all the required pages like Pricing & Plans, Services, Samples, Reviews & About.
- I added features like Whatsapp Integration, Light Mode / Dark Mode, Scroll to Top for better user experience.

FoodTruck : A Travelling Food Company (05/2023 - 06/2023)

- FoodTruck is a demo website. It is made using colorful gradients UIs, NextJs, TypeScript & Tailwind CSS.
- Here, I have designed a very attractive modern app like navigation styles.

CERTIFICATES

MongoDB Node.Js Developer (04/2023 - 12/2025)
I acheived this certificate after learning all the basic s & advanced concepts of MongoDB used in Node.Js app development.

Web Programmer (02/2023 - 06/2025)
This certification program made me learn Advanced JavaScript and Asynchronous programming, SSG, CSR & SSR.
